Edition

This is the Trimble® Accubid Classic software Release Notes (Revision A_ENG); Release 13.1.1.

Part Number ClassicEst_9070.08.0216_Release Notes
Friday, June 10, 2016 8:22 pm

Introduction

This document provides basic information about new features, enhancements, and modifications in **release 13.1.1 of the Trimble® Accubid Classic software**. More detailed information can be found in the online help system.

What You Receive with this Release

- New/Modified features outlined in this document
- Updated online help
- Electronic documentation available on the installation media and the Trimble Client Portal

Upgrade Procedure

Please refer to the [Update Installation Instructions](#) at the end of this document for information on requirements to install this update. Trimble recommends that you print these instructions to help ensure proper operation of the software application after installation.

Note – *In the installation routine, selecting the Update database option installs only program modifications and enhancements. Your existing tables, specifications, and estimates are not impacted in any way.*

Compatibility

Operating Systems

This version of the Classic software is compatible with 32-bit and 64-bit Windows® 7, Windows 8, and Windows® 10 operating systems. For a more complete listing of Technical Specifications, please go to our website at mep.trimble.com to review the technical specifications for the Trimble Accubid Classic software (*Products / Trimble Accubid Classic Estimating / Technical Specifications*).

Trimble® Accubid LiveCount™

This release of the Classic software is compatible with the Trimble Accubid LiveCount software, release 5.0.

Trimble® Work Management

The Trimble® Work Management software is Integrated into the Trimble® Time & Material Billing application. The Work Management program provides intelligent scheduling tools for those companies with a mobile workforce.

Note: *If you are upgrading from a Time & Material Billing version prior to 12.5, please contact MEP Client Services at 1-800-361-3030 or accubidsupport@trimble.com before proceeding.*

Intuit QuickBooks®

The Time & Material Billing software includes an integration with the Intuit QuickBooks application. This integration is compatible with QuickBooks versions **2012** and *newer*.

Tip – While the integration may work with earlier versions of the QuickBooks application, Trimble recommends you upgrade to the most recent release to take full advantage of all features in the software applications.

New Features/Modifications

This document lists new features and modifications in the Trimble Accubid Classic products.

Modifications

The following additional modifications are included in this release of the Classic software.

Classic Software Suite

- When connecting to a network drive, it was possible to experience a Hardware I/O error. This has been corrected.
- Copying items on the Incidental Labor tab now works as expected
- Page breaks used in Quote Pad now display as expected within reports
- Report Styles can now be selected when selection is displayed on a secondary monitor
- Display issues (layout and formatting) have been resolved for the following:
 - Surface devices
 - High resolution monitors

Time & Material Billing Software

- Occasionally a client would revert to their original name following a rescan. This has been corrected.
- When a task was created within Work Manager, but no employee was assigned to it was possible for Time & Material Billing Software to abruptly close. This has been corrected.

Essential Release Information

- **Microsoft SQL 2012**

This installation routine in this release of the Trimble Time & Material Billing software installs Microsoft SQL 2012. You will be unable to attach the database *packaged* with this version of the software to a lower version of SQL. Migrating the database from an earlier version of SQL will continue to work; for example, if you have SQL 2008 and migrate to the current Time & Material Billing software.
- **Compatible “Update From” Versions**

The Trimble Accubid Classic software can be updated directly from the any release of the following:

 - Version 11
 - Version 12
 - Version 13

If the currently installed version is not in the list above, please contact MEP Client Services at 1-800-361-3030 for assistance prior to installing.
- Pressing **[Esc]** on your keyboard in the Cost Allocation dialog no longer closes the window. You must now click *OK* or *Cancel*.
- **LiveCount™ Procedures**

When you are working in the LiveCount software, you must send your work to the Classic Estimating application *before* resuming work on your estimate. Failure to do so results in loss of the work completed in the LiveCount software.
- **Scalex Support**

The Classic Estimating software no longer supports the Scalex measuring tool. This is due to Scalex compatibility issues with the Windows 64-bit operating system.
- **Product Support**

If you have any questions regarding the Essential Release Information presented, please see the [Product Assistance](#) section for MEP Client Services contact information.

Update Installation Instructions

- This instructions below assume you have already downloaded the installation files from the Trimble Client Portal.
- You must have a previous version of the Classic software on the computer where you are installing this update.
- All users must be logged out of the Classic Estimating software before installing this update.
- ***Trimble recommends that you install this update during a non-busy time or after hours to minimize disruptions in your company's workflow.***

Estimating/ChangeOrder Installation Procedures

1. Locate the downloaded installation file. Double-click on it. The installation routine prepares the files.
 2. In the Trimble welcome screen, click **Trimble® Accubid Classic Estimating & ChangeOrder**.
 3. In the *Welcome to the InstallShield Wizard for Trimble Accubid Classic v13* screen, click **Next**.
 4. Review the information in the License Screen. Click **I Accept the terms of the license agreement**.
 - You must accept the terms of the license agreement to continue the installation.
 - If you wish to obtain a hard copy of the agreement, click **Print**.Click **Next**.
 5. In the *Custom Setup* screen, select all options you want to install. Click the **Help** button for more information on selecting options. Click **Next**.
 6. Select the proper option buttons in the *Install Material Database/Default Jobs* screen.
 - **Country**
 - **Measurement** **Tip** – If you do not want to *Install a new material database*, clear the checkbox .
- Click
- Next**
- .

7. In the second *Install Material Database/Default Jobs* screen, review the conversion options available. All checkboxes are selected. **Trimble recommends that you convert all jobs to the latest version**. If you do not want to convert, clear the appropriate checkboxes .

Click **Next**.

8. In the *Ready to Install the Program* screen, click **Install**.

9. Click **Finish** when complete.

-
10. Depending on your conversion selections (in [Step 7](#) above), the appropriate dialogs open.

 **Tip** – You will be presented with a dialog for each option you chose to convert.

Estimating Conversion Dialog

- a. Select the appropriate folders containing jobs from previous versions. If the Select Folders pane does not contain any information, click **Add** and you can enter the folder path or browse to the folder.
- b. In the Convert from which version field, select the job version you are upgrading from. Click **OK**.
- c. In the Convert Old Job Files dialog:
 - >Select the checkboxes next to each job you want to convert. If you do not want to convert specific jobs, clear the checkbox.
 - >Click **Convert**. When the conversion is complete, click **OK** in the confirmation message.

ChangeOrder Conversion Dialog

- a. Select the appropriate folders containing jobs from previous versions. If the Select Folders pane does not contain any information, click **Add** and you can enter the folder path or browse to the folder.
- b. In the Convert from which version field, select the job version you are upgrading from. Click **OK**.
- c. In the ChangeOrder File Converter dialog:
 - >Select the checkboxes next to the jobs/files you want to convert. If you do not want to convert specific jobs/files, clear the appropriate checkbox.
 - >Click **Convert**. When the conversion is complete, click **OK** in the confirmation message.

 **Tip** – Do not close the Trimble Accubid Classic welcome screen if you have other compatible software that requires installation. Refer to the [Additional Software Installation](#) section for more information.

Additional Software Installation

Depending on the software you currently have installed and/or are licensed to use, you may need to install additional software/databases to complete the update process.

Time & Material Billing Installation

1. In the Trimble welcome screen, click **Trimble® Time & Material Billing**.
2. In the *Welcome to the InstallShield Wizard for Trimble® Time & Material Billing Install* screen, click **Next**.
3. Review the information in the License Screen. Click **I Accept the terms of the license agreement**.
 - You must accept the terms of the license agreement to continue the installation.
 - If you wish to obtain a hard copy of the agreement, click **Print**.Click **Next**.
4. In the *Custom Setup* screen, select all options you want to install. Click the **Help** button for more information on selecting options. Click **Next**.
5. Select the proper option buttons in the *Install Material Database/Default Jobs* screen.
 - **Country**
 - **Measurement** **Tip** – If you do not want to *Install a new material database*, clear the checkbox . Keep in mind that regardless of your selection in this step, you must install the Time & Material SQL database. Refer to [Time & Material Billing Database](#) below for detailed instructions.
Click **Next**.
6. In the *Ready to Install the Program* screen, click **Install**.
7. Click **Finish** when complete.

Time & Material Billing Database

If you are currently using or are licensed for the Time & Material Billing software, you must install the updated database.

 **Tip** – The instructions provided in this section assume you are using SQL Authentication for the Time & Material Billing database.

1. In the Trimble Accubid Classic welcome screen, click **Trimble® Time & Material Billing SQL Database**.
2. In the SQL Install dialog, the **Use existing SQL Server instance** is selected by default for update customers. Click ▼ to select the SQL Instance you want to use.

-
3. Enter the **Login** and **Password** for the SQL instance already installed. If you do not have this information available, contact your IT professional for assistance.
 4. In the **Authentication Type for database** field, *SQL Authentication* is already selected.
 5. Click **Install**. A confirmation message displays when complete.

LiveCount 5.0 Software

1. In the Trimble Accubid Classic welcome screen, click **Trimble® LiveCount™**.
2. Follow the on-screen prompts to install the update.
3. When complete, click **Finish**.

Trimble® Integrator

To take full advantage of the features available in the Trimble Integrator, Trimble recommends you install the update included in this release.

1. In the Trimble Accubid Classic welcome screen, click **Trimble® Integrator**. The *Welcome to the InstallShield Wizard for Trimble Integrator* screen displays. Review the information on-screen and then click **Next**.
2. Review the information in the License Agreement screen. Click **I Accept the terms of the license agreement**.
 - You must accept the terms of the license agreement to continue the installation.
 - If you wish to obtain a hard copy of the agreement, click **Print**.Click **Next**.
3. In the *Destination Folder* screen, click **Next**. **Trimble recommends you install the Integrator software in the default location.**
4. In the *Ready to Install the Program* screen, click **Install**.
5. When complete, click **Finish**.

Complete Installation Procedures

In the Trimble Accubid Classic welcome screen, click **Exit**.

Provided you followed all instructions in this document, you are now ready to use this release of the software applications.

Final Steps

- Open the software using the method you normally do.
- The online help system contains step-by-step instructions on using many of the features included in this release.

Product Assistance

Trimble offers several avenues to obtain help using the Classic software program.

Accessing the Online Help

The online help is easy to use and is accessible through any of the following methods:

- Press the **F1** key at any time while using the program to display help for the current screen or dialog.
- Click the **Help** menu and then click **Help**. You can scan the Table of Contents, use the Index, or the Search function to find the information you are looking for.
 -  **Tip** – You can also click  or  on the toolbar to open the online help system.
- Use the **Index** tab to locate key words throughout the help system.
- Use the **Search** tab to find specific words used in the help system; for example, you might search for the word delete for instructions on deleting certain data from your system.

Trimble MEP Client Services

Before calling Client Services, we suggest you consult the online help. Many of the common procedures and questions are covered in this system.

Trimble MEP Client Services is available during regular business hours Monday through Friday.

Note – *We are not available on major holidays.*
