

## Trimble® Accubid Classic Estimating Software

Periodically, Trimble provides software releases that include modifications and enhancements to our software applications. We are pleased to announce the **Version 12 release** for our **Classic Estimating software product line**. This document provides you with important information pertaining to the feature modifications included in this release of our software.

### Enhancements/Modifications

#### Classic Estimating / ChangeOrder

- “Best-fit” grid control option can now be selected in most grids.
- Designation “break link” functionality has been added in this version (*BidWinner and Pro only*).
- You now have the option to not calculate Overhead and Mark-up taxes.
- The Cost Allocation dialog includes a new “Clear all Breakdowns” option (*Pro only*).
- Cost Allocations is available in labor screens starting with this release (*Pro only*).
- A new Quoted Material selection item list is available (*ChangeOrder only*).
- Classic Estimating now supports TRA-SER® Link Specification 2.
- A database labor value column has been added to the Extension screen
- You can now print Subs and Quote rows for any single vendor.
- The Extension now includes a weight column.
- General Expense and Equipment modifications (*Pro only*):
  - Auto-allocation of General Expenses and Equipment can now be based on Labor only.
  - These columns are now non-editable in the Bid Breakdown when the auto-allocate option is selected.
- Takeoff Modifications:
  - Takeoffs now include a date and time stamp.
  - In this release, Audit Trail notes display in the tooltips.

- Final Pricing modifications:
  - A % column has been added to the Change Final Pricing tab.
  - The *PrSum* field is now renamed “Key Indicators” . .

### Time & Material Billing

- You can now set a default client state.
- You can now print WorkOrder form (even when a job has existing takeoffs).
- A Client Name column is now available in the Schedule screen.
- On the Job Info screen, the Report selection box is now located below the Job Type. This change makes it more convenient when selecting report options (dependent on Job Type).

### Additional Modifications

*(affects all Classic applications)*

When printing, you can now choose specific page sizing.

## Steps to Install Update

 **Tip** - Trimble recommends that you install software updates during the least busy time of your day. Depending on the version you are upgrading from, the update may take additional time.
