

This document provides basic information about new features and modifications in the release of the Trimble® SysQue® software. More detailed information can be found in the online help system.

Introduction

These release notes describe the features and enhancements that are new for the major installer release dated 2018-08-09. For additional assistance, please email sysquesupport@trimble.com

Upgrade procedure

To download the major release, log in to the SysQue support forum at <https://sysquesupport.zendesk.com>, browse to 'General > Software Downloads > SysQue Software Downloads' and select the installer required for your Revit version. To update previously installed SysQue software, select the 'Update'. For new installations select 'Full installer'.

For additional instructions see the document 'SysQue Full Installation Instructions' also available in the forum under 'SysQue Software Downloads'.

Compatibility

Autodesk software

This release of SysQue is compatible with the current releases of Autodesk® Revit® versions 2017, 2018, 2019*.
*Separate SysQue installs/updates for each year

Windows

SysQue is compatible with Windows® versions 7, 8, 10

Backward compatibility

Digital models produced in Revit cannot be saved to or opened in previous versions.

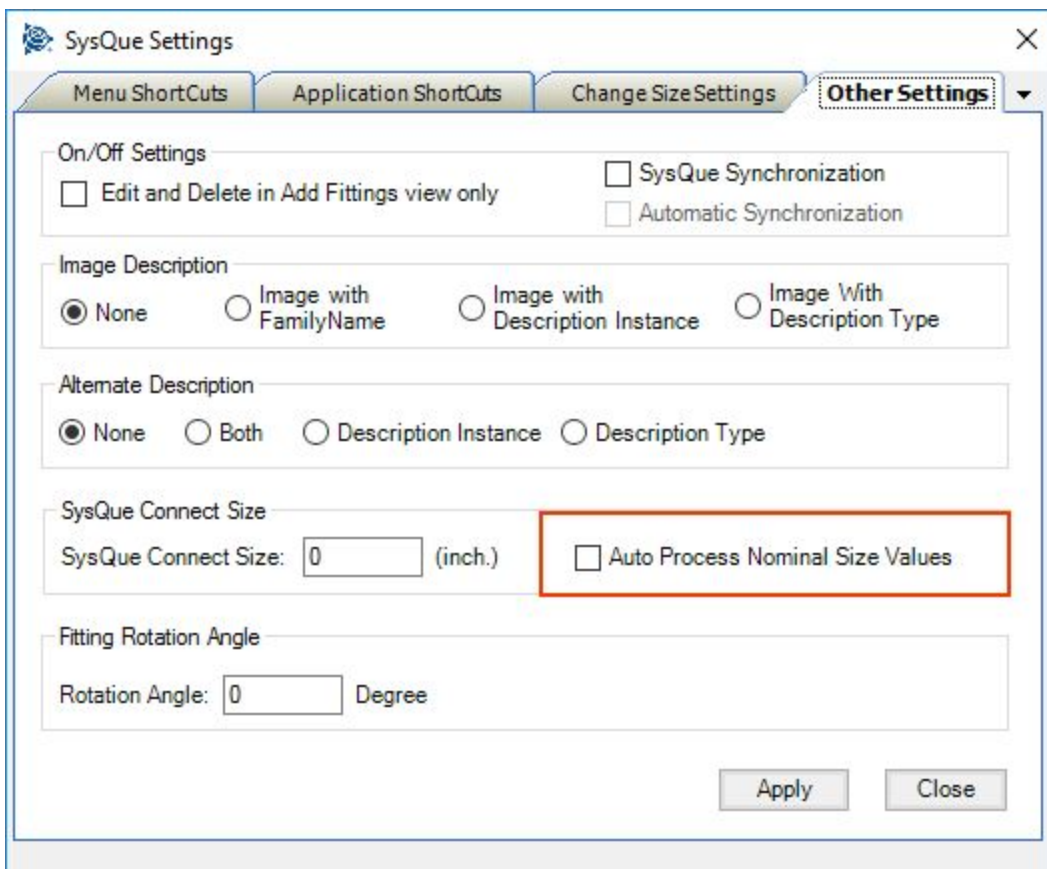

New Features, Enhancements, and Updates

Updates

This patch is to fix issues that arose in V6.0 with Pipe.

Pipe

- Nominal Size message was displayed during processing of pipe runs even when “Auto Process Nominal Size Values” is unchecked.
- Nominal Size speed enhancements.
- When using Change system, Reducing Tee’s has been corrected.
